O.M. Scott & Sons Company

THE SEED SITUATION

With but few exceptions, there should be an ample supply of farm seeds for the coming season. The principal exceptions are the strictly northern grown alfalfa, Cumberland and Midland red clovers, and possibly a few varieties of hybrid seed corn.

Oats and Barley - Again Scotts have heavily recleaned, bright, high germinating seed grains. While both Tama and Vicland Oats are disease resistant and actually may not need to be treated, we felt we should treat those that are Certified. The Barley and other oats varieties are also treated as recommended by the Experiment Stations.

Alfalfa and Clovers - We believe there will be plenty of these seeds to take care of everyone's needs. Ceiling prices are still in effect and have made difficult large quantity purchases but we have been able to get more small lots of seed and, with heavy recleaning, will be able to furnish Scott quality seed as in past years.

Meadow and Pasture Mixtures - Scott Mixtures contain top quality, thoroughly mixed seed. They are convenient to order and sow, and are more widely used each season.

Hybrid Seed Corn - The germination and amount of Corn will be equal to or better than last year. Kernels may be a little shorter and there are more rounds because pollination wasn't as perfect due to the drought. Our quotations have been made so there is a real saving in using the round, small or thick flat kernels. They are high in germination, uniformly graded and will plant accurately. If additional planter plates are needed, they are easily obtained from local implement dealers at small cost or we can get them for you. These special grades are available each season at reduced prices so that the same plates can be used from year to year.

When to Order - We suggest early ordering of seeds. While freight deliveries have been surprisingly prompt, it's a good idea to play safe and order now.

Seed Price List

December 1, 1944

"SCOTT'S" grade is the highest quality seed available. It is carefully selected and thoroughly re-cleaned. Noxious weed free. May contain 0.10% to 0.15% other crop seed and in most cases will test 99.75% pure.

SPECIALS: The grades marked "Special" may be slightly off in appearance or contain one or two percent of other clovers or crop seed. This seed is clean and perfectly safe to sow.

Price Ceiling Regulations on Alfalfa, Clovers and Timothy are in effect under Revised M. P. R. 471. If any quotations on these seeds are above prices permitted by ceilings, adjustments will be made. All prices subject to prompt acceptances.

RED CLOVER

Scotts Medium Red.....	\$27.25 bu.
Certified Midland	31.50 bu.
Certified Cumberland	31.25 bu.
Scotts Mammoth	27.25 bu.
Special Mammoth	26.10 bu.

ALSIKE CLOVER

Scotts Alsike	\$25.50 bu.
Special Alsike	23.75 bu.
Crimson Clover	11.00 bu.

SWEET CLOVER

Scotts Yellow Blossom	\$12.50 bu.
Scotts White Blossom Type	12.50 bu.

OTHER CLOVERS

Ladino	\$2.60 lb.
Ladino with 50% Alsike.....	1.30 lb.
Louisiana White90 lb.
White Dutch85 lb.
Wild White (Approved).....	1.25 lb.
Birdsfoot Trefoil	1.85 lb.

ALFALFA

U. S. Verified Origin

Scotts Kansas	\$29.25 bu.
Scotts Colorado.....	29.50 bu.
Scotts Utah	29.50 bu.

LESPEDEZA

Scotts Korean—Unhulled.....	\$13.00 cwt.
Scotts Korean—Hulled.....	17.50 cwt.
Scotts Sericea—Hulled	35.00 cwt.

Legume Inoculation

Soybeans	Red, Alsike, White Clover	Alfalfa and Sweet Clover
2 bu. size	1 bu. size	1 bu. size
5 bu. size	2½ bu. size	2½ bu. size
25 bu. size	Vetch, 100 lb. size.....	Lespedeza, 100 lb. size.....

New Improved Ceresan

For Treating Wheat, Oats and Barley
1 pound can.....
4 pound can.....
½ ounce treats one bushel

MEADOW MIXTURES

(Seed 12-16 lbs. per acre)

For high lime Soils

Scotts Alfalfa Mixture.....	\$38.00 cwt.
Alfalfa 7 lbs., Red Clover 4 lbs., Timothy 4 lbs.	

For medium lime soils

Scotts Red Clover Mixture.....	\$33.00 cwt.
Red 6 lbs., Alfalfa 2 lbs., Alsike 2 lbs., Timothy 5 lbs.	

Where soil is acid or drainage is poor

Scotts Red Clover, Alsike.....	\$31.00 cwt.
Red 6 lbs., Alsike 3 lbs., Redtop 2 lbs., Timothy 4 lbs.	

PASTURE GRASSES

Kentucky Bluegrass (<i>Fancy</i>)	\$33.00 cwt.
Canada Bluegrass	38.00 cwt.
Redtop (<i>Fancy</i>)	22.00 cwt.
Orchard Grass	41.00 cwt.
Reed Canary Grass	41.00 cwt.
Meadow Fescue	33.00 cwt.

PASTURE MIXTURE\$32.50 cwt.

A balanced mixture of grasses and clovers for establishing high-productive permanent pastures, or for reseeding old pastures. Contains Kentucky bluegrass, redtop, timothy, ryegrass, orchard grass, Louisiana white clover, red and alsike clovers, and alfalfa.

Sow 20 to 25 pounds per acre for a new seeding and about half that amount for reseeding an old pasture.

TIMOTHY

Scotts Timothy	\$ 4.50 bu.
Special Timothy	4.35 bu.
Hairy Vetch	16.00 cwt.

RYEGRASS

Ryegrass (Annual)	\$14.00 cwt.
Ryegrass (Perennial)	23.00 cwt.
Always inoculate legumes	

SMOOTH BROME GRASS

Southern Type	\$21.00 cwt.
Northern Type	19.00 cwt.
Dwarf Essex Rape.....	18.00 cwt.

SCOTTS TREATED SEED GRAINS

OATS AND BARLEY

	1 to 20 bu.	Over 20 bu.
Vicland (Uncertified)	\$1.70 bu.	\$1.65 bu.
Vicland (Certified)	2.30 bu.	2.25 bu.
Tama (Certified)	2.10 bu.	2.05 bu.
Columbia (Early)	1.60 bu.	1.55 bu.
Wayne (Medium)	1.80 bu.	1.75 bu.

BARLEY (Wis. 38—Smooth).....	2.40 bu.	2.35 bu.
------------------------------	----------	----------

Tama and Vicland varieties of Oats are resistant to smut and rust; are stiff strawed, high in test weight and yellowish in color. They are high yielding, particularly superior when rust is severe. One to three days later than Columbia in maturity. All Seed Grains are treated excepting the Uncertified Viclands.

SOYBEANS—Quotations will be included in the January price list. We will again have the popular field varieties and Bansei edible variety.

TREATED HYBRID SEED CORN

Scotts Hybrid Corn has been graded for width, length and thickness and will plant easily and accurately in any make of planter. It is treated for protection against disease. The round kernels are graded uniformly and will yield just as well as the flats but special plates are usually required for accurate planting. These plates are available for most standard planters.

Popular Hybrids are Listed—Ask About Others

EARLY MATURING HYBRIDS

	Round Grade	Flat Grade
Ohio M 15.....	\$5.75 bu.	\$8.25 bu.
Ohio M 34.....	5.75 bu.	8.25 bu.
Ohio K 24.....	5.75 bu.	8.25 bu.
Ohio K 35.....	5.75 bu.	8.25 bu.

MEDIUM MATURING HYBRIDS

	Round Grade	Flat Grade
Iowa 939	\$5.25 bu.	\$8.25 bu.
Ohio W 17.....	5.25 bu.	8.25 bu.
Ohio W 36.....	5.75 bu.	8.25 bu.
Ind. 610	5.75 bu.	8.25 bu.

MEDIUM LATE HYBRIDS

	Round Grade	Flat Grade
Ohio C 38.....	\$5.75 bu.	\$8.25 bu.
Iowa 4059	5.75 bu.	8.25 bu.
U. S. 44.....	5.75 bu.	8.25 bu.
U. S. 13.....	5.75 bu.	8.25 bu.

Ky 203—White Hybrid, later than U. S. 13. Flat Kernels \$9.00 bu.

SMALL FLATS—\$7.00 per bu. These are uniformly graded, high in germination and economical to use. Planter plates may need to be changed so the Corn isn't planted too thick. Will plant 8 to 9 acres to the bushel.

THICK FLATS—\$7.00 per bu. These are 1/64 of an inch thicker than the standard grade medium and large flats. In most planters, the same plates as are used for the regular flats will give uniform and accurate planting.

ROUNDS—Only medium and large rounds are offered. Due to the dry weather, pollination in our crossing fields wasn't as complete as in past years resulting in a higher percentage of round kernels. Quotations have been made accordingly.

SCOTTS HYBRIDS—While reports on the performance of these Hybrids have been quite favorable, yet because of the past unusual season, we suggest these be used on a trial basis.

Flat Kernels \$4.50 per half bu.; \$2.25 per peck. Round Kernels \$3.50 per half bu.; \$1.75 per peck

Scotts 22—Reported higher yielding than the M Hybrids. More drouth resistant, fodder remains green, uniform, ears husk easily. Maturity of M Hybrids.

Scotts 66—Just a shade earlier than Iowa 939. Drought, blight and stalk rot resistant; strong rooted and high yielding. An easy husking, promising medium maturing Hybrid.

Scotts 99—The same maturity as U S 13. Dark green, resistant to disease, slightly higher yielding. Tendency for two good ears per stalk.

SWEET CORN: Certified Golden Cross Bantam 55c per lb.—Certified Ohiogold 75c per lb.—Stowell's Evergreen 35c per lb.
